DETAILED ACTION

Claim Rejections - 35 USC § 112

1. In view of applicant's remarks dated 7/9/07, the rejection of claims 3, 16, 18-19, and 28 under 35 U.S.C. 112 have been withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles Nessler on July 16th, 2007.

The application has been amended as follows:

Cancel claim 16.

Allowable Subject Matter

3. In light of the current amendment, claims 2-15, 23-25, 27-31, and 39 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. The prior art of record neither shows nor suggests an apparatus for feeding a web with contouring the web in a plane transverse to the flow path with belt means towards a cutter assembly, wherein the belt means comprise three spaced apart belts

with different elevations or wherein the belt means comprises an endless base with a central land and a pair of spaced apart wings. The closest prior art of record, U.S. Patent No. 6,253,817 to Edwards, discloses contouring a web, but does not disclose using belt means to contour a web, nor is there any motivation to do so. U.S. Patent No. 3,353,432 to Phillipi discloses a belt means for contouring a web, but does not teach using three spaced apart belts with different elevations or a belt means with an endless base, central land, and a pair of wings. Consequently, the currently claimed invention is found to be allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
